

IP VOICE ISDN REPLACEMENT.

PRODUCT SHEET

Upgrade your hardware ready for the PSTN Switch-off without the costly investment

For customers wishing to keep using their existing PBX hardware following the PSTN Switch-Off, our IP Voice ISDN Replacement service provides the perfect solution. Flexible and cost effective, ISDN Voice Replacement means you can continue using existing phones, plus benefit from enhanced voice features.

HOW DOES IT WORK?

We install an IP Voice gateway box on site between the incoming IP Voice connectivity and your existing PBX. This connects you to the latest IP Voice technology which converts the incoming IP Voice to ISDN and ISDN to IP Voice for outgoing calls. You can continue using your existing systems with no changes to the internal telephony architecture.

WHAT IS ISDN?

Integrated Services Digital Network (ISDN) was introduced in 1986 and uses digital transmission to make phone calls, video calls and transmit data over the circuits of the traditional PSTN. The PSTN system is now outdated, so the decision was made to phase it out in favour of new solutions. Stop sell on ISDN will be in place from September 2023, and by 2025, all ISDN phone lines will be switched off.

KEY FEATURES.

Fast and easy
to install

Fully flexible

Resilient and
future-proof

Full migration
plan

24/7
management

Managed
upgrades and
patches

WHAT IS THE PSTN SWITCH-OFF?

The current Public Switch Telephone Network (PSTN) is ageing and very expensive to maintain. BT Openreach made the decision to end the life of the standard telephone line with the switch off taking place by 2025. It is already being phased in and as of 2023 businesses will no longer be able to purchase ISDN lines.

With the PSTN closure looming, businesses need to be prepared.

HOW IT WILL BENEFIT YOUR CUSTOMERS?

Easy migration without any major changes to existing infrastructure and hardware.

Cost-savings by protecting existing investments and without the need to invest in new infrastructure.

HOW IT WILL BENEFIT YOUR BUSINESS?

Resourceful partner portal with full access to campaign support, product collateral and training materials.

UK-based support with dedicated account management and professional services support tailored to your business needs.

WHY CHOOSE NASSTAR CHANNEL?

Everything you need for you and your customers, right there in black and white

We remove the complexity and keep it simple. Our ISDN Replacement solution meets the needs of your customers and provides unrivalled support and experience you can't get anywhere else.

- Established provider with years of experience
- Highly trained UK-based service and support team
- Access to the best expertise and resources
