

# ADSL BROADBAND.

## PRODUCT SHEET

### Everything you need from broadband, at a great price

Our cost-effective ADSL broadband solution offers your customers optimal network resilience, fast speeds and improved reliability with 99.9% network availability. Delivered using a copper line between the exchange and the customer's premises, it's the ideal solutions for smaller businesses who want a budget friendly solution.

### SECURE SERVICE, NO MATTER WHERE FROM.

We offer private ADSL lines that are specifically designed for businesses wanting to securely connect home workers or branch offices the main office network. This secure connection uses the same firewalls and security policies as your customers central site, reducing the risk of attack from viruses and other potentially damaging threats.

### HOW DOES ADSL WORK?
