

# FTTP BROADBAND.

## PRODUCT SHEET

**Say hello to the fastest mass-market download and upload speeds available throughout the UK**

Give your customers access to the UK's next-generation Fibre network, offering faster download and upload speeds, reliable connectivity, and consistently better performance than a standard ADSL and FTTC broadband connection. Faster speeds and greater reliability mean you can set your customers up to take advantage of additional products such as VoIP, all at a competitive price tag.

### WHAT IS FTTP?

FTTP (Fibre to the Premises) is a full-fibre service, providing a pure fibre-optic cable connection directly into the user's business.

Providing businesses with a consistent service at an ultrafast speed, there is no cable sharing, increasing speed and reliability, and providing a stable solution that delivers consistent speeds. Availability can be limited depending on location and installation may be required.

### HOW DOES FTTC WORK?

## BANDWIDTH OPTIONS.

Download	Upload
40	10
80	20
160	30
330	50
550	75
1000	115

## KEY FEATURES.

Up to 1Gb download,  
115Mb upload

Unlimited data

12-month minimum contract

Fast speeds, greater reliability

## HOW IT WILL BENEFIT YOUR CUSTOMERS.

### Increased speed and reliability

Up to 80Mb download and 20Mb upload speeds – perfect for hosted server access or cloud applications.

### Unlimited data

All the data they need for their business requirements with no extra fees and no caps to worry about.

### Host multiple users

Large enough bandwidth to cater for multiple users simultaneously, with multiple free static IP addresses included as standard.

### Enhanced control

Access to customised connection management portal. View real-time diagnostics, bandwidth allocation, and bill maintenance.

### Improved performance

Ideal for supporting high-bandwidth applications such as video, VoIP and large data transfers. Access and run business-critical applications more effectively.

## HOW IT WILL BENEFIT YOUR BUSINESS.

### Quick provisioning

We aim to install and have connections up and running within 10 days from an order being placed.

### High service availability

99.9% network availability means improved reliability and minimal downtime.

### Resourceful partner portal

Full access to campaign support, product collateral, and training materials.

### UK-based support

Dedicated account management and professional services support tailored to your business needs.
